Mediator Experience: As an advocate, I have participated in hundreds of mediations and arbitrations over the last 29 years in cases involving personal injury, including vehicle accidents (cars, trucks and motorcycles), trips and falls, products liability cases, professional liability claims against EMS and fire agencies and insurance coverage and bad faith cases. Following my mediation training, I have mediated and co-mediated approximately one dozen cases.

Mediation Advocacy: I have served as counsel in hundreds of mediations, arbitrations, mock jury trials and other dispute resolution forums over the last 29 years. The value of these claims has ranged between five figures and eight figures. I have worked with many different mediators and arbitrators in these cases and I have paid close attention to what works in mediation and what does not work. As a litigant, I have gained valuable information from several ADR professionals, which I employ in my own mediation practice.
